Products.**

MK Engineering Solutions

The "MKES" are a Sole Proprietorship firm that is an affluent manufacturer of a wide array of Rolling Mill Stands, Rolling Mill Parts, Gears & Gearboxes, Shearing Machine, Twin Channel, Cooling Bed, Furnace Pusher / Ejector, Pinch Rolls, Straightening Machine etc. We provide these products as per the latest market trends and deliver these at client's premises within the scheduled time frame. We have also selected a team of devoted and capable professionals who helped us to run the operation in a systematic and planned manner. Under the supervision of our mentor, "Er. Mandeep Singh (Owner), who has hold experience of more than 15 Years, we have gained huge success in this field. We have tried our best to serve our customers with a quality product delivered in a timely manner. We strive to build a good customer relationship with honesty and integrity which is reflected in our business. Due to the continuous faith of our customers, our business has improved many folds over the past few years. We continuously strive to better serve our customers and search for new avenues and methods to do the same. We value our customer feedback and have been able to enjoy the continuous patronage of our esteem customers through regular improvement of our services.

Why MKES?

Because we deliver value to our clients

Our end customers are rolling mill industries and we thoroughly understand their needs. We not only manufacture steel and allied rolling mill machineries and their spares but we are dedicated to deliver value to our customers. Just to satisfy a client's need is not our goal, we give our best to leave customer with an overwhelming experience whenever he uses our machinery or equipment. Our machines possess superior technicality with high standards of quality for ultimate performance in rolling of metals. Our efficiency has resulted into tremendous growth of our industry and nation's growth as well. Moreover, our professional integrity, unparalleled quality, dedication towards commitment and continuous innovation are key factors which promotes our work towards the expansion and development of our steel industry.

Export Market

As per ISO 9001:2015 standards we maintain quality of our products by adopting its QMS system. We procure raw material and other components as per the specified standards to leave no room for flaws.

User Friendly Designs

All MK Engineering Solutions are backed by trained technicians and engineers of our proficient team. The innovative mechanical design in combination with the use of an advanced manufacturing technology makes our equipment user friendly.

Winning Strategy

We practice transparent policies in our business and keep things clear with our customers. It makes us potential enough to expand our business.
